This month is about going beyond the superficial and expanding our consciousness around our true purpose and place in the world. Because this activation is in **Leo**, we have to clear and release anything blocking the Heart, interrupting the Flow or limiting the Creativity. It is time to reflect on what you consider to be your Authentic Self and how that has evolved over the last 18-months -to- 8-years. We are Releasing anything that no longer represents your Light, your Vibration or expresses who you really are. There is also a renewal of your creative energy & expression and a clearing that will allow you to expand and move in new directions and in ways that weren't even possible 2-8 years ago. Reflect on the issue of feeling unworthy of fun, sex, love or wealth. Often, people settle for what's easy and/or convenient rather than what inspires or fires them up, motivating them to do better and be more.

Bully asks you to check-in with when you are pushed to have to stand up for yourself or if/when you tend to force your ideas on others or demand others agree with you. There is so much fear, judgment & confusion that goes into this Archetype. It's the part of us that acts-out to get attention when there are much deeper, underlying issues to be addressed. You are being asked to also check-in with the various ways that you are super-hard on your Self or others and begin to clear, cleanse & clean out that kind of consciousness. Sometimes in our drive to improve ourselves or our lot in life, we compare or judge others when the energy is better spent looking in the mirror. It's time to cultivate substance so that your offerings to the world become richer, more dynamic and more of an authentic gift from the Heart.

The Shadow Work of this Archetype is to dig deeper for your true self-love & your unique gifts.

This month will re-set the connection to your **Thought Body & Crown Chakra**, clearing and releasing any blockages to your Higher Self so that it can go forward, filtering everything first for you, that is part of its job. You are clearing & releasing anything that blocks your own inner knowing from your conscious awareness and your ability to use or direct it properly. It's time to clarify where you've been, where you are and where you'd like to go in the next 9-months. As you are able to do that, you will also come upon that which must be cleared & released for the greater good, so that your goals can actually be accomplished. Look at where you may have been closed off from your innate connection to the wisdom of your Higher Self.
